Experience

UI/UX Design Lead Intern | Grovyn | [Link](#)

March 2026 – June 2026

- Crafted end-to-end website experiences for a retail confectionery client, delivering wireframes and high-fidelity designs for responsive user journeys.
- Designed POS workflows supporting 5+ operational tasks, reducing process complexity across inventory and billing operations.
- Mentored 3+ junior design interns, streamlined design reviews, and maintained design system consistency across 2 client projects.
- Collaborated with stakeholders to transform business requirements into user-centered wireframes, prototypes, and validated design solutions.

Projects

Foot Handle | Product Design | [Link](#)

Dec 2025 – Feb 2026

- Identified hygiene-related interaction challenges through user interviews and observational research, leading to the design of a hands-free door interaction solution.
- Led the end-to-end product design process from problem discovery through prototyping and concept validation using iterative user feedback.

Feedo | UX Case Study | [Link](#)

May 2025 – Jul 2025

- Conducted primary and secondary research involving 30+ participants to understand food decision behaviors, emotional eating patterns, and health-related challenges.
- Synthesized research findings into personas, journey maps, and opportunity frameworks, identifying key moments for personalized intervention.
- Conceptualized an AI-assisted nutrition experience providing contextual food insights, craving management support, and healthier food alternatives.
